

Name: Zain Ahmed

Email: zain.ahmed@email.com | Phone: +92 333 9876543

Professional Summary:

Software Developer specializing in Python backend systems and AI API integrations. Expert in building clean, scalable web applications and integrating Large Language Models (LLMs) to automate business workflows.

Technical Skills:

- **Backend Frameworks:** Flask, Django, FastAPI
- **Languages:** Python, JavaScript, HTML, CSS
- **AI Integration:** OpenAI API, Gemini API, LangChain
- **Cloud & DB:** AWS (S3/EC2), SQLite, MySQL

Projects:

1. **Smart Resume Parser:** Developed a Flask application that extracts text from PDFs using PyPDF2 and passes it to the Gemini API for automatic skill tagging.
2. **Task Automation Bot:** Built a Python-driven backend script that automates email sorting and responding using OpenAI's GPT models.

Education:

- **BS Computer Science – COMSATS University, Islamabad**
